OFFICE OF THE ASSISTANT SECRETARY OF DEFENSE  
Washington 25, D. C.

November 7, 1958

MEMORANDUM FOR THE CHAIRMAN, EXECUTIVE COMMITTEE, EDAC

FROM: Department of Defense Member

SUBJECT: Treasury Department Licensing Control

1. It is the view of the Department of Defense that licensing control as exercised by the Treasury Department affecting exports of U. S. subsidiaries abroad should generally supplement and support licensing controls over exports as exercised by the Department of Commerce.

2. It is therefore proposed that the Treasury Department be requested to be prepared to take such steps as may be necessary so that it will be in a position to exercise transaction controls over certain items which may not be licensed for export to the Sino-Soviet bloc by the Department of Commerce, whether such items are under international embargo, or not.
